

## Selectchemie Corporate Communication

### REACH (Regulation 1907/2006/EC)

Dear Business Partner

Selectchemie as an international company with legal entities in the EU is importer and supplier of various pharmaceutical and nutritional substances, fine chemicals, intermediates, cosmetic and technical products.

**Selectchemie has committed to be Registrant** against the European Chemicals Agency (ECHA). We are well aware of our obligations along the supply chain and the foreseen deadlines for pre-registration and registration. Our experts are taking all necessary steps to ensure continuity of product supply to you.

**Selectchemie has pre-registered timely all substances which we import in quantities  $\geq 1$  ton/year unless they are either exempt from REACH legislation Art. 2 (e.g. substances used in pharmaceutical or nutritional application) or the registration is confirmed to be submitted by our upstream supplier/manufacturer.** For preventive reasons, in 2008, Selectchemie has pre-registered substances imported in quantities of  $> 750$  kg/year, as well.

We avoid sending questionnaires whenever possible. On this occasion, we would like to assure you that we will strive to cover as many as possible of the uses of our substances in our registration dossier at the time when registration is due.

Thank you very much for your contribution. If you have specific questions please direct your inquiry primarily to our area product Sales Manager or at [reach@selectchemie.com](mailto:reach@selectchemie.com).

Yours Sincerely

Selectchemie AG
